FOR IMMEDIATE RELEASE

HUOT UNVEILS VISIPUNCH PROCEDURE KITS

May 21, 2009 – Huot Instruments, LLC of Menomonee Falls, Wisconsin has introduced a surgical procedure kit featuring its popular line of dermal biopsy punches. This product launch is in response to mounting physician request.

As of May 20th 2009, Huot Instruments will have a new product available for purchase, VisiPunch procedure kits. This kit contains; either a 3mm 4mm or 5mm VisiPunch biopsy punch, one scissors (3.5” curved), two gauze pads, one set of disposable forceps, one povidone-iodine prep pad, two alcohol prep pads, two adhesive bandages, and one CSR wrap. The kit provides all essential instruments needed to perform common surgical procedures, along with the VisiPunch biopsy punch the company is known for.

The launch of Huot’s newest product is in response to requests from pathology labs and physicians. It will retail for \$29.75 per five pack, and \$55.00 per ten pack. Private labeling will be available for an additional charge.
